Five Reasons Why the Internet is Bad

Almost everyone **agrees**[1] that the Internet is a good thing. We use the Internet

in many ways. We can **go online**[2] and play games, make new friends, and

learn things. More than 4 **billion**[3] people in the world use the Internet.

However, not everything about the Internet is good. Here are five bad things

about the Internet. First, many people use the Internet too much. In the United

States, it is **common**[4] for people to use the Internet 24 hours each week, or

about 3.4 hours each day. In Europe, many people say that the Internet is

more important than watching TV, having a car, or even getting washed. They

may not have the time to use their brains to think. Second, some people use

the Internet at work. This makes their boss angry and **fire**[5] them. Third, when

people use the Internet so much, they may not be healthy because they don't

get much exercise. Fourth, many people have "friends" on Facebook, but

these may not be real friends. Real friends are people you can see **face-to-**

face[6]. Two or three real friends are better than 200 Facebook "friends" that you

never see. Finally, some people are **criminals**[7]. They are bad people and

they use the Internet to try to **steal**[8] your money.
